

## Amount of Sustainability Subsidy

$$S = A - B \times 12$$

**S** Amount of Subsidy (Maximum: ¥2Million)

**A** Business Revenue in the most recent fiscal year

**B** Business Revenue in the target month X 12

### Example:

**A:** ¥5M

**B:** ¥200,000 X 12 = ¥2.4M

**S:** ¥5M – ¥2.4M = ¥2.6M... but Maximum is ¥2M, ∴ **¥2M**
